

K-Love radio serves me locally in a way I need, and support. Previously living in the NH/MA area, there were no such positive stations, although the need was great. I wish I had KLOVE available in my area when I was a stay-at-home mother of three small children. It would've helped me get through my day better focused. If KLOVE is displaced by an LPFM station, I don't know what we'd do. My children listen to KLOVE, it's where we get our news, where we get music that's so important to us in our home, but mostly in our car where we spend so much time. I believe KLOVE offers a service to the community that provides hope, encouragement, and a place for those with real needs to find a reason to believe in a better tomorrow. I cannot find any stations in the car that are safe for my small children's ears except for KLOVE and Air1 radio. The music is offensive and full of bad language, promoting of sex, violence and drugs. When the music is acceptable, often the DJ's conversation is not. Please don't do anything that would even cause a chance of losing this very valuable station. It's a very important part of my life, as well as that of my friends, associates and neighbors. Thank you.
